

PUTNAM LAKE PARK DISTRICT TOWN OF PATTERSON

Town of Patterson, PO Box 470, Patterson, NY 12563

November 5, 2018

REQUEST FOR QUOTE Aquatic Vegetation Management

The Town of Patterson, on behalf of the Putnam Lake Park District is soliciting quotes for the treatment of algae for the 2019 season. Putnam Lake is a 225 acre, man-made lake with a average mean depth of 11 feet. Putnam Lake is located in the Town of Patterson, Putnam County, New York. Treatments are to be conducted by boat using a surface spray at a rate of application in accordance with the manufacturers specifications for algae treatment. Prior to each application, water clarity, temperature, dissolved oxygen and pH must be measured to determine that suitable conditions exist as per the manufacturers recommendations. Application of the treatments shall not be made if suitable conditions do not exist. Water use restriction notices shall be posted by the applicator prior to each treatment. Following application, a written survey and treatment report to be forwarded via e-mail to the Town of Patterson Supervisor and Town Clerk. The report shall include the water clarity, temperature, dissolved oxygen and pH at the time of treatment, and any other pertinent information or findings. All required certifications and proof of insurance are to be provided to the Town Clerk upon notice that bidder's proposal has been selected.
